**RESPONSE TO FINAL OFFICE ACTION, NOTICE OF APPEAL
AND REQUEST TO REMOVE FINALITY OF OFFICE ACTION**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant files this paper in response to the Final Office Action mailed September 6, 2005. Please consider this paper a Petition for a three-month extension and Notice of Appeal.

Reconsideration and allowance of the subject application are respectfully requested. Claims 102-205 are pending in the present application.

Submitted with this response is new, non-cumulative scientific evidence further demonstrating the existence of lower energy states of hydrogen in a number of different ways, including, but not limited to, studies of spectroscopic lines, energy output, compositions of matter, generated plasmas, and inverted hydrogen populations. As detailed below, Applicant also identifies independent third-party data pursuant to the PTO's agreement, which evidence resulted in verbal confirmation by Examiner Wayne Langel that two BlackLight applications formally handled by him were allowable before he was told to misrepresent that fact and, thus, was forced to resign from examining those cases "for moral and ethical reasons."
